

# Gateway

GWY-01

The Gateway bridges the user's Plejd mesh with the Internet, allowing control of the Plejd system regardless of where the user is situated.

- Enables remote control.
- Protects time functions in the event of power outages.
- Connected via power adapter to wall sockets and via Ethernet to a local network.
- Installed in the Plejd app and becomes part of the existing mesh network.
- Enables integration with third-party systems, such as Google Home.

#### MAINS ADAPTER

Powered through included USB-C adapter.

#### POWER CONSUMPTION

0,6 W

#### EXTERNAL OPERATING TEMPERATURE

0 till +35 °C

#### DIMENSIONS

70x70x20 mm
